ad Viviani Fl. Dalm. Notitia: Observationes

pag. 2. ad Phalangium lanceolatum. P. altissimum V. hexagonia bona species distincta

3. ad Ph. Weldenii in D. Schrebermann non accepta huic. Genus?

5. Ph. arcuatum Wf. non invenitur?

8. de Stellaria graminea et Gramineis vide epistolas meas Anni 1862.

12. Lonicera australis. an in agris siccis Dalmatiae Insulae reperitur?

29. Asclepias Rubra, in insulis Quarnei glareosis diligentissime exploratis post Welpinum nunquam aspexi ~~rarius~~ hinc ~~inde~~ ~~saltem~~ Rubra, meo saltem ~~olim~~ ~~autem~~ deleatur.

33. Centaurea ~~montana~~ Cuneifolia. Cent. montana et cuneifolia ejusdem Primarii d. Willdenow in montibus Karstica frequentissime, cum Primulis temporibus ~~florum~~ ~~florum~~ ~~florum~~ florens, et in ab Scutellum Cuneifolia radicis fibris inclusis, napuli more, ejusdem inveniri vide variant

37. Centaurea rupestris ~~spec~~ apud nos ~~obvia~~ ~~obvia~~ certe ex hybrida ex C. Scabiosa et rupestris; in napuli ~~more~~ ~~more~~ ~~more~~ gemmantes, plus quam alterum trahens

49. Cirsium palustre apud nos provenit in regionibus Fiumanis ~~in~~ submontanis, nec in Liburnia

56. Geranella cana habitat in Montenegro memorabile?

58. Bellidis species neque quam in unam confundere nolim

~~60. ad Senecionem jacobaea adhuc [illegible] ~~ ~~[illegible] ~~ ~~[illegible] ~~ ~~[

p. 129. Xanthium italicum, Mentzi, in litoreis Algiri frequ[entissimum] in Dalmatia ~~ora~~ [cum reliquis litoralibus] [Dalmatiae] quoque quaerendum est.

144. An ~~vera~~ [Vera] Agaloa procumbens ~~[illegible]~~ [illegible] in Mt. Ubelli qui Abbatia 6000' una attingit collectus?

145. Agaloe species [sec.] Petia, secunda et intranatalis in [illegible] ~~[illegible]~~ [antiquabilem] ~~[illegible]~~, et [illegible] ~~[illegible]~~ inventus.

150 Androsace laetea idem quod [illegible] de Agaloea ~~[illegible]~~ memorandum est.

163 Linaria simplex quoque in insula Lesbia [illegible] ~~[illegible]~~ [verum] [illegible] Chimaki, rara autem.

176 Minuartia verna latifolia / [illegible] [illegible] [illegible]

pag 198 Sat Chrysanthemum parviflorum mole Ebel in florata
[illegible] Mir. graeca ut varietas vere cultus est
[illegible]

pag 200 [illegible] a Reichb
in icon. gen. ad varietate Calendulae officinalis referenda
a gen. distinctissima est species

203. cultu ego quoque Cheiranthus hederaceus et Nasturtium
tum Hk. sic ut varietates est locus soli cultu
cultus cuniculus

p. 204. [illegible] Alopecurus in Galactia
[illegible]

p 214 Calocephalus Lacteus [illegible] et M. Wyse et Kerwicie misit
[illegible] in flor exsiccata [illegible] Mark
negat a me communicatus. An Dalleae species

p 224 Leucium Marum in varietate Mosc. an unus cultus?

224. Cynoglossum Omphalodes an idem ac C. sheinfletii
quod in insulis Canariis, ut in istis auctoribus obvium est

243. Crassula Vivianii in insulis Canariis Veglin Mus Vindobonensis

Vol III

pag. 2. Vincetoxicum officinale (Cynanchum Linn.) f. a N. officinalis et
congeneribus ita distinctum in insulis Canariis Lessing. et
praesertim vicinis Teneriffae Collado et Jeborodrigo hic cum
Asperula hispida frequens obvium. Odor florum gravis et
Vincetoxicum Nutri. Asperula species in collibus circa
Cattaro et Montenegro [illegible] a me [illegible] lectae

7 Galium Mediterraneum fl. albo circa Cattaro a me lectum

16. Viburnum Lantana lectum a Th. Pichler in Montibus
Kirwaticatibus varietatem [illegible] plus [illegible] [illegible]
[illegible] in Cypro

Germanis Gallicis quae similis, quia in
N. Africa [illegible] flora [illegible]
[illegible] Kirwaticatibus

pag 53. Bunium Bianicum & Bonnetianum Rob. [illegible] [illegible]
[illegible] ultimum [illegible] Theres ad P. olgin [illegible]
majores [illegible] ad [illegible] esse gaud.

56. Myrlicum hasgli P. leuzgebilatus [illegible]

36 Mygl. fum [illegible] Ulpi. [illegible]
[illegible] pro Mercurio [illegible]

42. Sedi [illegible] probabiliter [illegible] = S. Bonnanni in
Neil. ic. gen. [illegible] quod in istis litteris [illegible]
Quenei frequen.

61 Ferilis infeste et heterogyle [illegible] quin diversa [illegible]
hac ultima constantia in [illegible] calicinibus [illegible]
[illegible]

64. Rathiscus fumaindex illa quae A. vicula [illegible]
Vivini accepi — a mea A. fumaricidi
a mea ex Montenegro, cum illa M. Magni istrice, et
olim matrim [illegible] perfecte cunae [illegible]
[illegible] fl. ras. [illegible] perfecte [illegible] convenit. [illegible]
quam A. vicula unum alb. Vivini accepi; et ad quem
[illegible] referri debuisset plane mihi dubium [illegible]
[illegible] segmentis [illegible] foliorum forma et latitudine, diversum, et caulem
ad genicula valde tumidum, quod in praecedente
ille non erat. — Magis quam hac inberte affirmo
[illegible] A. Cerastium et hirsutum
[illegible]

66 Anagyra Bianettii. Malleum Rorkii [illegible]
in hortum et. Bianetti qui primum in notis [illegible]
plantam detexit [illegible] genere. Fragrans de hac
nullam mentionem habet, nec quidquam cum [illegible]

75. Paonia cultum, pubescens et officinalis, [illegible]
plantae adscendunt foliorum forma, et indumento [illegible]
nobilis.

78 Thalictri species [illegible] majus et minus valde [illegible]
[illegible] ex [illegible] in [illegible] genere, [illegible]
[illegible] et Th. minus per
[illegible] diversitate [illegible]
species statuenda
