Dear Fabio:

Here are the two
nickel Bimorph benders.
I trust they survive the
postmaster's stamp!

These are the bare
Bimorphs. They need clamps
at one end and, of course,
suitable connections to the
two plates. It is a kind
of ceramic "sandwich" (with
nickel-plated "bread"!)

I shall send two
mounted Bimorphs to Gene
Lechelt, with the expectation
that he will deliver them
to you.

Best regards,
Frank
