Prof. P. A. Saccard

Dear - Colleague,

We are unable to say whether  
either of the inclosed spec.  
are *Phyllosticta Tiliae* Sacc. Sp. n.

Will you kindly give us  
your opinion? We are inclined  
to think the Florida spec. is  
that species & that the Canada  
spec. is <sup>to</sup> a new species.

Very truly yours,

J. B. Ellis
