Dear Sir

I have unfortunately lost  
my duplicate specimens of  
*Diaposthe micronulata*  
sacc. I enclose spec. on  
*Solidago* which may  
be that species but spec.  
not "acute". Will you do  
me the favor to say whether  
you think this is *D. mic-*  
*ronulata*. And also to  
determine for me the  
other species enclosed?

Very truly yours

J. B. Ellis

3755 is a curious thing  
I can make nothing of it
