

Feb. 23. 83

Newfield
New Jersey

My Dear Sir

Your card is read^d
I have sent you copies
of our new species in
Am. Nat. & in Torr. Bull.
I enclose specimens & des-
criptions of 6 new species
not yet published which
pertain to vol. 3^a Sylloge.

I send also 4 species in
a small packet, nos. 3783
and 3796-3799.

I expect to have Cents.
XII. & XIII. N. A. f. ready
in April or May.

Very truly Yours
J. B. Ellis

3783. *Aspergillus* with
Cladosporium (*lignicolum* Cda) ?
 3796. on leaves of same exotic
 plant in gardens Philada, Pa.
 3797. In rotten wood & in the
 soil around old stumps
 3798. In foliage *Musa*.
Flerida. Dr. Martin (*Macrosporium*)

3799. Inside a barrel (made
 of elm wood) in the cellar
 Newfield N. J. Sept. 1883
 Belongs to the Stilbaceae
 & seems to me a new
 genus - near *Isaria* -
 If you also think it new
 call it Martindalea ^{Sacc. & Sacc.}
 in honor of Isaac C. Martindale
 of Camden N. Jersey - Mr.
 M. is a zealous & active
 botanist.
