

Newfield

New Jersey

Dec. 26. 1879

My Dear Sir

I have rec^d your
Postal Cards of the 9th
and 10th Dec. but unfor-
tunately, as you know
Fungi Glatic Fasc. IX-XVI and
Michelia Fasc. I-V have
been sent back to the
Director General of Posts
at Rome Italy.

There is no doubt
that the Post Master
at N. York knew where
to send the packages
but our (wise)? Post
Master General Mr.
Reys has directed
that no letters or

packages improperly
directed shall be forwarded
in the mails.

I am very sorry
that so small a man
should get into so
important a place &
thus be able to dis-
commode the people
by his foolish direct-
ion. But there is
no help for it now.

Please send me
the packages again
directed to

J. B. Ellis
Newfield
Gloucester Co.
New Jersey
U. S. A.

And I think I shall
dec get them

I have received -
Fungi Italici I-VIII
and Mycotheca
Veneta Cent. XII-XIII
— that is all I
have read^a

Thanks my dear
Sir for the honor of
the new genus
Ellisiella

Monilia aureofulva
see spec. in herb. Curtis
= *Oidium simile* Berk.
Hook. Lond. Journ. Bot.
vol. IV. p. 310. It seems to me
an *Oidium* rather than a
Monilia

- 1 = *Hendersonia Peckii* Clint.
 - 2 = *Sphaeronema horridum* Ell.
 - 3 = *Trichothecium griseum* Cl.
 - 4 = *Podosporium rigidum* S.
 - 5 = *Stictis linearis* C. & E.
 - 6 = *Helminthosporium interseminatum* B. & B.
 - 7 = *Polyperus cupulaeformis* " "
-

I enclose with this a
small package
with a few more
specimens 20 fr.

Very truly Yours

J. B. Ellis
