diversa a nostra interrupta, spica et foliis
multis brevioribus.

Phleum echinatum - bene folia magis laeva

Phalaris aquatica - bene, cum nostra *Beillard*

Festuca spectabilis - in Baldo ^{non?} et ^{habitat} *Nanas* similis
nostrae *Festucae* magnae ex *Pelletier*.

Alena ex *Dalmatin* - nostra *A. striata*

A. pubescens - bene

A. sterilis - nostra *atheranta*, spiculis
tri-raro tri-floris.

A. fragilis, bene sed sine patria.

Agrostis varia - *richard* nostra vulgaris, floribus
rubris et albis et paniculis striatis.

Pellaea uniflora - bene

Ara caryophylla - floribus utroque aristatis

A. capillaris - floribus altero aristatis et
panicula magis divaricata.

A. henrich *Lagaria* - *maritima* - floribus utroque
aristatis et similibus. *A. caryophyllae*.

Festuca brevicaulis - bene cum nostra

F. pygmaea - bene

F. pallens - an nostra *flauca*?

Bromus Luchensis - non cum nostra *rebus*.

B. scaberrimus - bene cum nostra

Poa callina - eadem ac nostra

P. festuiformis - bene cum nostra - ligula
truncata, fissa - panicula pallens, est rubra.

P. fertilis - bene

P. subspicata - bene

Globularia nana, ex *Salle* *Baronica* eadem ac

G. cordifolia - nostra ad omnes et foliis bidentatis.

Stachys graminifolia - bene sed sine patria.

Sc. longifolia ^{species} ~~species~~ nostra *syriaca* nam
haec differt foliis multis brevioribus acutis, acuminatis.

Sc. hybrida, *baucantia*, *transylvanica* - bene

Sc. sileneifolia - bene cum nostra differt tantum
magiori pubescentia foliorum et caulis, similis
tamen *Sc. canescens*. Non *Sc. sileneifolia* *W. K.*
^{non cum affinis}

Sc. decurva ex *Monte Mariano* sub nomine

Sc. papposae - est *Sc. multicaulis*.

Sc. humilis *reest*.

Mercurialis murata - *Lessing* pro *Sc. hirsuta* - bene

Sedum Boconi - bene -

S. budim - bene -

S. dylatatum - bene -

S. parviflorum - Baga - bene -

Cucurbitaceae fr. ^{in pult.} bene sed sine patria

Plantago lanceolata varietas magna pl. lanceolatae.

Pl. embergeri ex Birkner Lort.

Pl. foliis lineari lanceolatis quinque nervis integris
viris, scapo toruli sericeo-bilobis. spica globosa.
bracteis minutis flore brevissimis. tota planta
effusatione rubesit. proxima *Pl. sericea* Kit.

sed in hac spica ovata, bractes flore longiores,
stamina brevissima, nec colore extinctione mutas.
in sammis locis M. Birkner. Lort.

- Deest spica - est *Plantago sericea* Kit.

Pl. hungarica - est *Pl. lanceolata*.

Elaeagnus angustifolia - bene sed sine patria.

Lamprosomus Montpellierana - bene.

Laricetaria judaica videtur nostra minor -

Cynoglossum pictum - bene.

Lubmonaria angustifolia - bene cum nostra.

Anchusa lutea: nostra ex spalati

Al. angustifolia diversa a nostra *Myrosotis*
pube strigosa elongata.

Lubmonaria media - Deest.

Cerinth major e monte Sella ^{Domagala} est *C. maculata*

Alia *Cerinth* major sine patria est vera -

Onosma stellulata - bene

O. edivipus Den cum nostra ~~sericea~~.

O. orientale Deest.

Lycopsis variegata spin. picula - bene

L. ciliata in arvis spalati Lort. est *Anchusa lutea*.

L. obtusifolia Deest.

Echium violaceum - Vesta. bene? an pustulatum?

E. parviflorum - bene.

E. plantagineum, spalati ad muros bene.

E. piteum Lort. ^{Lithoff.} diversum a *Polymaria pitea* ^{plena} ^{plena}
Eadem upus floris duplo et tripla brevioribus

Cory. hedysph ad muros et vici longe ^{est C. murex}

C. murex est. *C. murex* ^{est C. murex} ^{est C. murex} ^{est C. murex}
Viburnum ^{est C. murex} ^{est C. murex} ^{est C. murex}

Verb. nigrum est ex parte vicia

Verb. asperum vicia nostra

Lonicera elonga Vesta Sella bene

Cory. murex ^{est C. murex} bene sed sine patria

— ^{est C. murex} bene

— ^{est C. murex} bene

— ^{est C. murex} bene

— ^{est C. murex} bene

— ^{est C. murex} bene

Sedum ^{est C. murex} bene

— ^{est C. murex} bene
