

CORNELL UNIVERSITY,

BOTANICAL DEPARTMENT.

GEO. F. ATKINSON,

ASSOCIATE PROFESSOR CRYPTOGAMIC BOTANY.

CRYPTOGAMIC BOTANIST TO EXPERIMENT STATION.

Ithaca, N. Y., Dec 26 - 1894

Prof. P. A. Saccardo.

My dear Sir,

Can you obtain for me a recently collected specimen of your Botrytis terrella, not more than one or three months old? Also one of Botrytis bassiana? I am especially desirous of studying in culture an authentic specimen of your B. terrella in comparison with an American form determined as the same thing.

Very sincerely yours,

Geo. F. Atkinson
