

My dear Professor,

Lovitz 29/10/85

I've sent you the little card (as you call it). but  
purely the doubt is in my mind whether I've  
reduced it in any way, so as to be able to  
send it, in a number of the Botanical Magazine,  
and in fact searching through the fascicles that are  
sent you, I have also found that  
which is not so. I will send it  
to you as soon as possible.

Yours truly  
L. B. Brown
