

H. L. BOLLEY,  
PROFESSOR OF BIOLOGY,  
BOTANIST TO THE EXPERIMENT STATION.

Fargo, North Dakota, Jan - 8<sup>th</sup> - 1891

Dr P.A. Saccardo  
Padova, Italy

My dear Professor:-

I received your kind favor of 12/13 - some time since - Am pleased to know that the culture reached you in good form - and am thankful to you for the suggestions concerning the sand. I shall look up the article cited on *Bacillus Carotinum* for comparison. I am, however, inclined to believe that the organism is not a *Bacterium*.

Thanking you again for your kindness & remembrance,

Yours very respectfully,

H. L. Bolley,
