

New York Botanical Garden,
Bronx Park,
New York City.

Jan 11. 1902

My Dear Doctor Saccardo

Complying with your request of Nov. 11. which has just reached me I am sending you by this mail a reprint of my paper in Muhlentbergia on Porto Rican Fungi. The sending out of these reprints has been delayed by my removal from Alabama. I am now located here at the Garden and am in charge of the Fungus collections in the Herbarium including the very important Ellis collection. If I can ever be of service in any way please command

me as it would give me great pleasure
to be able to show my appreciation of the
great debt we all owe you for your monument
at Sylloge -

I regret to say that at present I have
no photograph of myself suitable to send
you. I will however remember your
request and send one as soon as I
have some taken.

Yours very truly
F. S. Earle
