

Stanford University, California, November 28, 1901.

My dear Dr. Saccardo:

May I take the pleasure of soliciting you as a subscriber for a set of my herbarium specimens which I expect to collect during this coming season? For six months I shall carefully botanize in the Tehachapai mountains lying between San Joaquin valley and Mojave desert of this state. This region will yield a wonderfully rich and interesting collection. May I depend on collecting a set for you?

During the past six years I collected in the state of Washington, and through its experience I feel able to put up as fine specimens as Mr. Pringle makes of the Mexican flora. I shall make a special effort to secure mature fruit far as many as possible, which I am sure will be appreciated by systematic working botanists. I expect to be lively engaged in field work on this coast for many years to come, and if your botanical museum is not stocked with our plants, I heartily submit my services to you. Allow me to refer you to a few of my European customers: Dr. J. Urban, Berlin - Dr. J. E. Dyer, Kew - Dr. Emm. Drake del Castillo, Paris.

Hoping to hear from you soon very favorably. I am,

Yours faithfully and obediently,
A. D. S. Elmer.

100/125 adams street, Cambridge, Mass.

Yours faithfully and obediently

Wm. Lloyd Garrison

My dear friend
I have just received your letter of the 10th inst. and am
glad to hear that you are still so active in the cause of
the oppressed.

I have been thinking much lately of the
importance of the work which you are doing, and
of the need of more workers in this field.

I am sure that your efforts will be
fruitful, and that you will be able to do much
good in the world.

I am, my friend, very truly
yours

Wm. Lloyd Garrison
