Professor P. L. Saccardo,
Padua, Italy.

Dear Professor Saccardo:

I am so unfortunate as to have secured a copy of your Sylloge Fungorum in which volume 14 is deficient. Pages 657-672 are missing. This appears to have been due to the ~~negligence~~ of the maker. I wish very much that I could repair this deficiency. Have you or can you secure proof sheets or page proof of these missing pages which you can ~~send~~ furnish me? I have the copy which was originally purchased by the late Rev. A. S. Langlois.

Thanking you for any trouble you may go to to assist me, I am
November 8th
1901.
Very truly
David Griffiths
