

[illegible]

IV. Denique annus institutionis, ~~cujuslibet~~ generis, - a Lyllio, saepe omittitur - hic accedit indicium
tabulae generum comparativae.

Generum Fungorum
quadri

Quadr

Einmal wandelst du parallel zum Gegenstand
oder imperpetuum et
et: aber das ist eine
falsche Vorstellung

et si aliter cartis de

Tabulae hae ad sequentia proposita paratae sunt.

~~Larum tabularum proposita hanc sumit~~

I ut ^{claro} demonstratur maxime offensus in fungorum scribendis in charact.
sporarium. Temptus paucis notatis haec habetur lex, quod ^{est} fungi sunt
maiores, rarius et tunc ^{eorum} spora sunt simplicius et minus

II. Ut clucescat ^{in casu per multis} generum analogia prologica et otite Niam parallelismu (+).

Qua factum est ut lacunae in tabulis generum non manifestae fiant.
et, cum lacunae sint numeratae, novis inventis generis, locum eorum
in systemate ^{humere} exacte indicare possimus. Quod si lacuna sit impleta, fiat genus
novum designet, indicabimus numerum lacunae occupatae adde lineam supra v
supra numerum quae significat ^{locum in systemate ubi} ~~apparet~~ novum genus locumque ostendit. Exempli gratia.
haec lacunam n. 3 occupabit: *Armitia* *rhodopora* haec n. 18 occupabit.
h. vero aliquand. invenitur ^{genus} novum inter Volvariam et Annulariam medium significabit
n. 6 vel 70 prout ut ^{un. v. alteri} ~~apparet~~.
