

Department of Botany, Univ. of Calif.
Berkeley, California, U.S.A. Feb. 28. 1902.

Dear Sir:-

Enclosed you will please find a list of a set of plants collected in the San Jacinto Mountains last season. These specimens have been very carefully selected and prepared, the material is ample and the data accompanying them complete.

For several years I have been selling sets regularly to Königl. Bot. Garden zu Berlin, Royal Gardens Kew, Royal Gardens at Edinburgh, Missouri Bot. Garden, U.S. Natl. Museum and other herbaria in America, to any of which I can refer.

Since I have not before sold you plants I will agree to send this set and if you are not satisfied with it I will take it off your hands. The set contains 220 sheets, making the price 22.00 dollars, delivered.

Hoping to receive a favorable reply I am,

Very truly yours

H. M. Hall.

To the Director

Royal Gardens,
Padua.

Plants of the San Jacinto Mountains, Southern California

COLLECTED BY H. M. HALL, NO. 2401

Antennaria speciosa E. Nelson. n. sp.
