(HORTICULTURAL BRANCH)

Burnley, 9th Sept^r 1895

Dear Sir,

I presume that by the time this reaches you, you will have received my "Systematic Arrangement of Australian Fungi" together with the few Pamphlets sent.

There are still quite a number of Fungi to be determined for Australia & I would like to see you issue a "Universal Host-Index" & I would become a subscriber for it. It would be a fitting

sequel to your Sylloge
Hungarum?

I shall always be pleased to
receive any of your publications
in return & remain

Yours faithfully
J McAlpine

Professor Saccardo.
