

Department of Agriculture

(Pathologist's Branch),

Melbourne,

23/8/

1896

Dear Sir,

I enclose an Order for 50 francs (£2) as requested for Vol. IV of your Sylloge & Appendix. There is much need of some standard for the determination of colour in the Fungi & if you have published anything on that subject & would send it, I would remit whatever it costs.

I am always pleased to receive any of your pamphlets & remain

Yours faithfully
J. M. Alpine

P.S. I find that the Government
only send Order on receipt
of book, so I will see that
it is despatched immediately
the Volumes are received

D. M. Alpine
