

Department of Agriculture

(Pathologist's Branch),

Melbourne, 4 / 10 / 1898

Dear Sir,

I am at present
investigating the Fungus
diseases of Citrus-trees
in Australia & would
like to know what
illustrated works you
have published on the
subject & the cost.
I have the Plates by
Penzig in "Annali di

Agricultura 1887?

Can one also procure a
set of Herbarium specimens
of the Fungi at present
known on Citrus-trees.

I have ordered the remaining
volumes of your 'Synonymy'
& hope to receive the
completion of the Host-Index
soon

With kind regard

Yours faithfully
J. M. Alpine
