

20/6/93

It was very grati-
fying to me, dear
Prof. Saccardo,
to receive the
two extra prints
from the Hedwigia
so important in
this instance
as it shows the
connection of
Mytilitta australis
with a *Palymorus*.
This is the only
one

case, in which
this came under
^{my} myologic notice
in the 46 years
of my ministry
did stay in Australia.
Prof Gen
or shall receive
one of the two
extraprints, when
he returns from
England, where
he is on a scientific
mission from
here.

By this post
I send you two
small parcels of
things. They appear
all common
species, which Dr
Cook must have
had long ago, and
they would only
be of interest to
your own collection
for the sake of
locality.
I had hoped to
attend the medi-
cal Congress in
Rome, but at this

My dear Sir,
I have the honor to acknowledge the receipt of your letter of the 11th inst. in relation to the matter of the Italian Science Congress. I am sorry to hear that during the period I could not have my foot for the several months requisite. So I shall probably never meet you or any of my Italian Science Congress personally. I have however provided some notes on the therapeutic value of Duboisia and its merits for the Rome Meeting with respectful remembrance to your membership in our much
