

Albany, November 13th 1883

My Dear Sir;

I have this day received your kind letter of Oct. 29th, and most highly appreciate the compliment of the gen. nov. "Peckia". Unfortunately for me there is a genus Peckia of the Sphaeriopsidae, though I believe it to be a spurious one.

See State Mus. Rep. 29, p. 47.

If you could change the name to Peckiula, I see no objection to it and would then most gladly send your diagnosis, as you request, to our Botanical Bulletin. Please let me know if it shall thus be changed.

Very truly Yours
Chas. H. Peck
