

State Museum of Natural History.

Albany, N. Y. March 21st 1885

My Dear Sir:

I inclose to you
a specimen of *Sporodinia* which
inhabits decaying *Agaricus abortivus*.

Can you tell me what species?

I also send a singular thing on
the ovaries of *Sporobolus ramulosus*.
I can not tell where to place it.
Can you tell me its name if it
has any?

Very truly Yours

Chas. H. Peck.
