

New York State Museum of Natural History,

Albany, Dec. 6th 1883

Prof. P. A. Saccardo

My Dear Sir:

I have received the copy of "Genera Pyrenomycetum Schematica Delineata", and am delighted with it. It makes it very easy to understand the distinguishing characters of the genera. and to refer species to their proper place.

I send Post Office Order for 6 francs in payment therefor according to the printed request.

Very truly Yours
Chas. H. Peck.
