

Sthlm, Karlavägen 28. — Dear Sir,
first heard of ¹²/viii/89, according to which the Lyt. Disconge. will be ready in Dec. this year. Thus I await some of the next days my firm You ordered exemplar. — Just to day I received a letter from Fried. Cauder & Sohn in Berlin with the annoying message that they can not for me obtain Saccardo Fungi Italici complete (only "Lief. 1-16 und 29-38"). I have before in vain tried several other foreign booksellers. Either the Royal Academy at Sthlm nor the Library of the University at Upsala have the work. And, as far as I know, no private person in Sweden has it. In consequence thereof it is impossible for me to borrow the work in this country. And therefore I allow me to ask You, Sir, whether You possibly could name me an Italian book-seller or perhaps a private person, who on reasonable terms might be willing to sell me an exemplar or eventually fasc. 17-28. — Don't You think it would be good to have another edition of the work issued?
