

Stirling, Karlovágo 28.

Dear Sir,

Thanks sincerely for Your postcard of 31/12 98
which I received today. With the assistance of an
Italian-German Dictionary, which has slid into
my library, I have understood the contents pretty
well, I believe.

It will be very delightful to see and use vol.
VII of Your *Lgt. Fung.*, with the conclusion of which
You have rendered especially the Younger my-
cologists an extraordinary service and easi-
ness in the labour. To congratulate You for
having been able to finish this gigantic work
so soon.

If I understand You right You offer me
fasc. 1-16 and 29-32 (38?) of "*Fungi
italici*" colored for francs 64. - If
that be the case, I would feel much
obliged, if You would kindly send me
these fasc. as soon as possible. I may
perhaps be able to complete the work
later on from some second hand book-
seller. It is a great pity that the mis-
sing fascicels contain *typhomyces*,
which I have the greatest need of.

1890.
4/1 ~~1889~~

Your most sincere discip.
L. Rouell.
