

UNITED STATES DEPARTMENT OF AGRICULTURE,
DIVISION OF VEGETABLE PHYSIOLOGY AND PATHOLOGY,
WASHINGTON, D. C.

Lincoln, Maine July 12 1899

Dear Sir,-

I would acknowledge receipt of your card and would thank you for your trouble in looking over the fungi which I sent you. Prof. Trelease is at present on an expedition in Alaska, but I have sent your request for the Rafinesque volume to the librarian, and if it is available, I have no doubt it will be sent you as soon as possible. I will let Mr. Trelease know about the photograph as soon as he returns which will be the end of this month. I am at present in these parts to study the diseases of some of the forest trees, particularly the so called Trametes Pini and Polyporus pinicola, as an agent of the Dept of Agriculture.

Thanking you again for your trouble

in my behalf

Very sincerely yours

Hermann von Schrenck.

Dr. P. A. Saccardo
Padua, Italy
