H. C. IRISH, HORTICULTURAL ASSISTANT.

PLEASE ADDRESS CORRESPONDENCE  
TO THE DIRECTOR.

ST. LOUIS, MO., Jan. 26, 1901.

Dear Professor Saccardo:

I am sending you herewith a number of Discomycetes and Imperfecti from Alaska, and shall be very greatly obliged if you can find time to determine them for me in the next few weeks, for incorporation in a list of Alaskan fungi that I am preparing for the reports on the Harriman Expedition of 1899--which I accompanied. In case of any nondescript species, will you not kindly give me a name and description, and, if you like, a figure, to be published in the list?

As much of this material is sterile, I send you all of everything. After keeping a part of anything you care for that is in quantity to be divided, will you not kindly return the remainder to me?

With sincere regards,

Professor P. A. Saccardo,  
Padua, Italy.

Yours,

*Wm. Trelease*

Accompanying this, by sample post, are sent 69 envelopes, in 3 parcels.
