PLEASE ADDRESS CORRESPONDENCE

TO THE DIRECTOR.

ST. LOUIS, MO., 7/26/97.

Dear August Saccardo:

Among some few fungi collected by me in the Azores in 1894 and 1896, I find these three bits that I venture to send to you hoping that you can guess what they pertain to. — though I fear that all are sterile. No. 1 especially interests me, for though sterile it is, as you see, very striking and very abundant.

I should you recall any fungi collected in the Azores, I should be very grateful if you would kindly send me a memorandum of them for addition to my own very short list. Bestuz' M. Trelease.
