

Forden Vicarage

Welshpool.

England. 25th May 1876.

My dear Sir.

I am glad you liked the Fungi
& microscopical slides.

I very gladly accept your kind offer
to exchange Italian fungi for English
ones, & will place some aside for you
if you will do the same for me.

Do you study Phanerogamiae Botany?
A friend of mine would gladly exchange
British Herbarium flowering plants

for Italian flowering plants with you.

I hope soon to publish a fasciculus
of East Indian Fungi.

Yours very truly

Edm. E. Vire.
