

Forden Vicarage

Walspool.

England. July 13. 1877.

My dear Sir.

I have received the 100 plates
of Fungi, & Michaelia, the cover was
sadly torn, & was so injured that
I wonder it ever reached me. Will
you kindly let me know how much
money I owe you for them so that
I may post the same to you at once.

I have not yet received from Dr
Coke your Century of Fungi (Myco-
theca) but have a fasciculus

in return for it just ready.

In your letter of 6. v. 76 you
say "Posso offrire qualche centinaio
di fanghi italia in in cambio di
attretanti inglesi". I accepted the
offer, but never heard any thing
more.

Hoping to hear from you again
shortly so that I may remit the
money. I am dear Sir

Yours truly

Edm. E. Tice.
