

Fordm

Welschpool. Sept 2. 1878.

Dear Sir.

I have received Michelia Num 11.
but as "Fungi St. Autog delinrata" is soon
to follow purpose sending a Post Office Order
for them both together. My fasciculus of
Micro Fungi Britannici is now ready. You
have sent me 2 centuries so that I shall
still owe you one. - I wish I had all your
fasciculi but do not know their expense.

Believe me, dear Sir

Yours faithfully
John E. Vise.

Prof: Saccardo.

I am sending for your acceptance by post
a singular form of spores in Puccinia Conii
Zehl, & a paper on Acidium depauperans.

Welsch. 8/III 78
