Dr. P.A. Saccardo,
Padua, Italy

My dear Sir:-

In your Notae Mycologicae in the Annales Mycologici for February 1913 are descriptions of two uredineae from Mexico. They are Aecidium zonatum and A. Thevetiae, both collected by Bonansea. I wish very much to examine them and will be greatly pleased if you will send me a portion of each one.

I am enclosing two specimens for your herbarium and also am sending some of my recent publications.

Very truly yours,

R-EA

J. C. Arthur
