May 30th 1914

My dear Professor Saccardo

Please accept my
best thanks for the honour
you have done me in naming
the new genus Burtleria after
me. I only received your
letter of the 13th May a day
or two ago as I have been
travelling in Spain.

It was a great
regret to me that I was
unable to see you on the

occasion of my visit to
Padova. I had so much
hoped for the opportunity
of paying my respects to you.
I trust that you have
again quite recovered your
health. M. Traverso was
very amiable and showed
me the treasures of your
beautiful and famous
garden.

I am glad to find
that my little collection of
Indian fungi contained several
interesting forms and am
grateful to you for having
examined them and named
the new forms. I have no

Observations to make regarding
the names.

Please accept the
expression of my best respects

Yours very truly

E. J. Butler.
