Laboratories,  
Gordon Memorial College,

Khartoum January 3rd., 1916

DIRECTOR'S OFFICE.

Prof. Saccardo,  
The University,  
Padova,  
Italy.

Honoured Professor,

I am working with a form of Black Mycetoma found here and find in Professor Pepere's paper that you have formed a new genus Sclerosporium for the forms Monosporium apiospernum Saccardo 1911 and Monosporium sclerotale Pepere 1914.

Can you kindly help me by giving me the diagnostic characters of your genus Sclerosporium and the reference to your publication?

I shall be most obliged if you can give me this help which will be duly acknowledged.

With apologies for troubling you:-

Yours sincerely,

Albert J. Chalmers

Director, W.T.R. Laboratories.

P. S. I understand Italian I shall be obliged if you will kindly reply in that language. A.J.C.
