HANOVER, N. H., Dec. 1, 1913.

Dr. P. A. Saccardo,
Padua, Italy;
My Dear Dr. Saccardo;

For a considerable time I have been interested in the genus *Chaetomium* and have at last prepared a paper, the preliminary notice of which I am sending you in a separate package. At the request of Dr. Thaxter I am forwarding to you specimens of eight of my new species. It gives me great pleasure to send these and I hope that they will arrive in good condition.

Thanking you for past favors, I remain
Sincerely Yours,

A. H. Chivers.
