Prof. R.A. Saccardo,
Casa Trotter, Avellino,
ITALY.

Dear Sir,

In response to a request from the General Secretary of the Linnean Society, I forward herewith two copies of my paper on South African Perisporiales published in the Transactions of the Royal Society of South Africa, and shall be pleased to send you any further publications if you care to have them.

There are a number of shorter papers in the hands of the Royal Society of South Africa which will probably be published shortly; and I have just finished working through the Microthyriaceae in our mycological herbarium, and I hope that this paper will be published in the same transactions.

Yours faithfully,

M. Dodge

for CHIEF, DIVISION OF BOTANY.

D/MG.
