Padua, Italy.

My dear Sir:

Please accept many thanks for the two publications received from you this morning, as follows: "Cronologia" and "Notae Mycologicae", and also for the half-tone reproduction of your photograph from Mycological Notes, with your autograph.

We are very sorry indeed not to be able to secure an actual photographic print of your likeness, as we are preparing a series of enlarged portraits of the more noted botanists of the world to frame for the walls of our laboratories, and had hoped to include your portrait among these. It is not possible to reproduce satisfactorily from a half-tone.

If it would be possible for us to place an order direct with any photographer in Padua for your photograph, we would be very glad indeed to do this - meeting all necessary expense.

Yours sincerely,

C. Stuart Gager

Director.
