

BRITISH MUSEUM (NATURAL HISTORY),

Sept. 11. 1911. CROMWELL ROAD, LONDON, S.W.

Dear Sir,

Claviceps Tunci Adams. (diagnosis)

Miss A. L. Smith is away on vacation.

Our Museum copy of the Irish Naturalist XVI  
has been sent to the book-binder.

I have therefore written to J. Adams himself  
to send you a copy of his diagnosis of the fungus.

Should you fail to receive it, will you kindly  
apply to us again?

yours faithfully  
A. Gepp.

POST CARD.

6. — PIV

11 SEP 11

Al Signor Dr. P. A. Saccardo,  
Vittorio,  
Veneto, Italy.
