

Paris, Feb. 18 1857

Prof. P. A. Saccardo

Dear Sir: In answer to your
letter of Feb. 18th I would say
that it would probably be better
for me to examine the grass ma-
terial at your herbarium if you are
willing as I may want to look
up other specimens than *Panicum*.
I shall be here probably two weeks
longer and then I go to Madrid
so I shall not get to Palma for
about a month. I shall be
pleased to identify any of your
Panicum material from North
America. I am very much
pleased to know that you have
Bore's material as I am very
anxious to identify it. I think
many of his species must be
taken up, but botanists have been
taken the trouble to identify them.
Very sincerely
A. S. Hitchcock

Address me at Antwerp
Red Star Line, 22 Kammenstraat.
