*Education Building, Albany, N. Y.*

July 19, 1915.

Prof. P. A. Saccardo,  
R. Orto Botanico,  
Padova, Italia.

Dear Professor Saccardo:

I am anxious to include the records  
of the following New York fungi in the Annual Report for  
1914:

Coniosporium lumulosum Sacc  
Curreya peckiana Sacc  
Cytospora phomopsis Sacc  
Dendrophoma phyllogena Sacc  
Harpograghium magnum Sacc  
Leptosphaeria houseana Sacc  
Micropellis pitya Sacc  
Phoma houseana Sacc  
Nothomyces n. gen. Sacc  
" nigricans Sacc.  
Septoria breviuxula Sacc  
Sphaerella populnea Sacc  
Sporodesmium pilulare Sacc  
Rhodobospora clarkenana Sacc

I am in doubt whether they have been published yet. If  
they have been published will you kindly give me the citations,  
where published? If you have not published them on account of  
the war I would be glad to have you send the descriptions of  
them to me for publication in the "Annual Report for 1914".

I would be very glad to have an early answer.

Regarding the war, I am one of the many Americans who  
wish for a speedy victory for Italy and the Allies,

Sincerely yours, *H. D. House*
