Professor Saccardo,
University of Padua.

Dear Professor Saccardo:

I am anxious to secure a copy of your *Sylloge Fungorum*, and observe that it is published from Padua. Could you kindly inform us as to the price of the complete work and where it can be best and most quickly purchased.

I spent a very pleasant hour in your delightful garden during the past summer, but my time was limited and I failed to meet you. I carried away pleasant recollections, however, alike of the University and the Botanical Institute.

Very truly yours,

John M. Macfarlane
