

Department of Agriculture

(Pathologist's Branch),

Melbourne,

1st Aug 1905

My Dear Sir,

I have much pleasure
in forwarding specimens of the
new genus *Thromyctadum*. All the
species are sent with the exception
of *U. alpinum* which is rather
scarce & you will find them
fully described & illustrated in
Annales Mycologiques N° 4
(Aug. 1905)

I have just received Vol. ~~xvii~~ of your
Sylloge & it is marvellous how
the subject grows.

If you could add to your other great
services to Mycology by publishing

an Annual Index of all new Fungi
quite apart from your Sylloge,
I would be pleased to become a
subscriber.

You will remember that we have
already communicated over this new
genus & I trust that you are
now convinced from the photographs
& specimens. A full description &
illustration appear in *Annales
Mycologiques*, N° 4 (Aug. 1905)
With kind regards

Yours faithfully
J. M. Alpine
