

Peking, April 15, 1912.

Prof. Dr. P. A. Saccardo Esq.

Dear Sir:-

I am very sorry for the delay in sending you the translation of the description of the new species which appeared in Japanese in the Botanical Magazine (Tokyo). Beside the description which I am sending you under separate cover, there is, so far as I know, no other description of new species in Japanese in this Magazine.

With profound respect for your great work, I remain
yours very truly

Ichinō Miyake
