Garden,
New York City, May 14 1903

Dr. P. A. Saccardo.

My dear Sir;
It is my desire to
meet you at The museum when
I visit it in August next to
study The Polyporaceae. Will it
be open August 1 - 15 or is it
ever closed? Will The specimens
be available? And most of all,
will you be there during August
at any time?

Very truly yours,

W. A. MURRILL.
