R. Istituto Botanico  
Padova, Italy

Dear Sir:

Under separate cover I have sent five packages of fungi, including Ascomycetes and Imperfect fungi. A large number of these should be new species. I trust you have received all the specimens that I have sent and that these arrive in good condition. More fungi will be sent for determination at a later date, but these will come along slowly as we are now all in war work. I should be pleased to hear from you at your earliest convenience.

Very truly yours,

OTTO A. REINKING,  
Assoc. Professor of  
Plant Pathology.

Ggo.
