F. L. STEVENS, PATHOLOGIST

J. C. HALL, ASSISTANT

B. W. KILGORE, DIRECTOR

West Raleigh, N. C., March, 1, 1910.

Dr. E. A. Saccardo,
Padova, Italy.

Dear Dr. Saxxardo:

Your card of the 9th at hand. Very numerous and exhaustive attempts have been made by various Botanists to induce Rolf's Sclerotium to produce some sort of spore, but no such attempt has ever succeeded.

I shall be pleased if you could send me a reprint of the article in which you publish it., because I desire to use the name as early as possible in a book, which I am about to publish.

Yours truly,

F. L. Stevens
