Padova, Italy.

Dear Sir:

In accordance with your card of May 10, I am sending you, under separate cover, a number of specimens of fungi on which I would be pleased to get your critical opinion. Please retain the specimens for your herbarium.

I appreciate very much your willingness to examine my material, and will try to send you some interesting specimens.

I am also sending a few of my publications.

Very respectfully yours,

James R. Weir
Forest Pathologist in Charge.
