Dear Dr. Saccardo:

Under separate cover I have sent to you four more packages of Philippine fungi and I trust that these will reach you in good shape. I have seen Dr. Yates and he assured me that he would send his two recent publications on new Philippine fungi. I am awaiting to hear the results of some of your first determinations of my specimens. In the course of a few days, I shall send more specimens of fungi, from southern China which I collected during the months of May and June, and others from the Philippines. Thanking you for your cooperation in this matter, I remain

Very truly yours,

Otho A. Reinking
