

Research Management Workshop

Advanced Research Management Tools

When: October, 7, 09:45 - 15:30 **Where:** Università Ca' Foscari Venezia, Ca'Foscari, Dorsoduro, 3246, Venezia

Opening by Prof. Giacometti (University of Venice Ca' Foscari) and Jörg Limberg (Elsevier VP Sales Europe)

Presentations on Use Cases

10:30 - 11:00 Prof.ssa Antonella Basso, Prorettore alla Programmazione e Valutazione (University of Venice Ca' Foscari); *Sustainability in Global Rankings: making the invisible visible*

11:00 - 11:30 Anna Muraro, Area Ricerca e Trasferimento Tecnologico - Settore Gestione dati e sviluppo applicativi (University of Bologna); *Information Systems in the Assessment of the University Research Products (presentation in Italian)*

11:45 - 12:15 Jonathan Greer, Queens University of Belfast; *Use Case of the Queens University of Belfast in the use of SciVal and Pure*

12:15 - 12:45 Antonio Gulli, VP Product Management Elsevier; *Smart Data and Algorithms for the Publishing Industry*

12:45 - 13:15 Eng. Eleonora Palmaro, Research Organization Office (Istituto Italiano di Tecnologia (IIT)); *Evaluation Exercises of an International Research Institute*

14:00 - 14:30 Marcel Vonder, Elsevier Head Product Management SciVal; *What is Next in SciVal?*

Including Roundtable discussion and a lunch

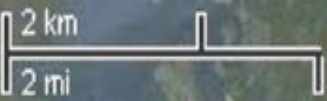

Achille Giacometti

OPINION

Let's make science metrics more scientific

To capture the essence of good science, stakeholders must combine forces to create an open, sound and consistent system for measuring all the activities that make up academic productivity, says **Julia Lane**.

University rankings smarten up

Systems for ranking the world's higher-education and research institutions are about to become more sophisticated, says **Declan Butler**.

Assessing assessment

Transparency, education and communication are key to ensuring that appropriate metrics are used to measure individual scientific achievement.

Venice Workshop 2013

A poster for a workshop titled 'Sustainability in University Rankings: a new proposal for rankings'. The background is a photograph of a Gothic-style architectural facade with a series of white, pointed arches. The text is overlaid on the lower half of the image. In the top left corner, there is a small circular logo for Ca' Foscari University of Venice. Below it, the text 'Ca' Foscari University of Venice' is written. To the left of the main title is a colorful circular logo with the text 'sustainable Ca' Foscari'. Below that is the 'QS INTELLIGENCEUNIT' logo. The main title 'Sustainability in University Rankings' is in large, bold, yellow letters, with the subtitle 'a new proposal for rankings' in smaller, white letters below it. At the bottom, the date and time '21st October 2013 - h. 9:00' and the location 'Ca' Foscari University of Venice - Aula Baratto' are listed in white text.

Academics from an Italian university have challenged university ranking organisations to integrate principles of sustainability into their league tables.

Chiara Mio and Achille Giacometti of Ca' Foscari University of Venice set out the case for embedding sustainability during the IREG-7 conference in London last month, arguing that it was possible to reach agreement on metrics that would produce the required data.

The Link Between Employability and Academic Rankings

May 19, 2014 / in [Higher Education World](#), [IREG](#), [University Rankings](#) / by [Martin Ince](#)

By [Martin Ince](#)

Senior representatives of the three main global university rankings and the newest arrival on the scene came together for the first time at a conference in London jointly organised by the IREG Observatory on University Ranking and the QS Intelligence Unit.

However, perhaps the conference's biggest tribute to the success of university rankings was paid by Chiara Mio and Achille Giacometti, both based at Ca' Foscari University of Venice in Italy.

They made the case that environmental sustainability is a neglected aspect of university performance, despite the existence of measures such as **GreenMetric** which aim to capture environmental achievement at campus level. And they suggested that sustainability be added to existing rankings, in the hope of getting university managers to take it more seriously.
